DEAR MR. Weisberg; 4-29-90

PERhaps my earlier LETTER was LOST in the mail or misplaced but, NO COLLECTION of JFK memorabelia could be complete (my opinion) without your "autograph". I have great Respect for your devotion and time and money spent Searching for TRUTH in The Kennedy Tragedy in which you spent over Those Long years. I have read some of your hard To Find "Whitewash Series" books and They are Classics, as I Fully understand your work, Early in The Years, wasn't popular with the Government or many people. Many Thought best To Keep 11-22-63 swept under The rug but, Thanks To men such as your self we are much closer To what went on before, during, & after These dark days. May I again Take The liberty of Requesting your autograph? I would appreciate This very much. MR Weisberg! Your work does indeed Mean a LOT To people as my self who Share These

same concerns and interest. My meager (2-years) of study, collecting, and reading, of course, isn't a spit-in-the bucket compared to your time but, I'm trying to appreciate what dedication others have spent before me.

I hope this note finds you well, and in good health, and I just want to extend my "thanks" and best wishes to you Sir. You've not been forgotten nor your work! Either - we do remember.

Respectfully, (Best wishes)
